

Custom Packages

"I'm getting married in 8 months. What can I do to look my best?"

Do you have an **event coming up** or a **treatment goal**? We can devise a custom package for you. Unlike our annual packages, this package is designed to address a specific treatment goal (eg. I want my skin to look its best before my wedding, my event, my trip, etc.)

Financing

If you're considering a package but want to spread out your payments, then Beautifi financing may be the way to go. Beautifi is a Canadian company that helps clients finance a treatment plan by providing monthly payment options. Beautifi is highly flexible and responsive. It only takes a couple of minutes to complete their online application and to qualify for Beautifi financing.

How do I get a custom plan or package?

Book a comprehensive consultation through Artmed's website form. After booking your consultation with the medical clinicians best suited to your needs, we will: We will:

- Assess your skin and evaluate any underlying skin conditions (provide access to MD or NP if Rx needed)
- Provide Visia® Skin Analysis
- Recommend best treatment options for your goals
- Formulate a costed treatment plan which integrates your needs around budget, schedule and downtime
- Review your current home care products
- Optimize homecare results with pharmaceutical grade product recommendations
- Review financing options
- Assist you in scheduling appointments

Custom Annual Treatment Plans

"I'd like to know what I should do and when I should do it for best results."

If you plan to spend \$2500/yr or more and you're looking for a year-long plan plus a schedule of what treatments to do when to ensure optimal results this may be a great choice for you.

Our custom annual plans set out your:

- Proposed treatments
- Units/amounts of injectables
- Homecare products

It is formulated with your unique requirements in mind. Annual plans allow us to **bundle products and services** and thereby provide our **best possible price.**

Annual plans are also an excellent option for prevention and maintenance.
