

ADDRESS THE VISIBLE SIGNS OF AGING IN MINUTES.

Thermage enables you to smooth, tighten and contour skin for an overall younger-looking appearance.

NO SURGERY OR INJECTIONS

Thermage is non-invasive, no cutting, no needles.

A SINGLE TREATMENT

One quick treatment (30 to 90 minutes depending on the treatment area) can deliver outstanding results for most patients.

FAST AND COMFORTABLE

Designed to deliver maximum results in a short, comfortable procedure.

LITTLE TO NO DOWNTIME

Go right back to life as usual - no need to miss work, fun, or avoid the sun.

LASTING RESULTS*

Results improve over 2-6 months following treatment and can last for years.

MULTIPLE TREATMENT AREAS

Treats wrinkles and loose skin on the face, around the eyes and on the body.

*Recommended by physicians as part of an annual rejuvenation maintenance program

"All the sit-ups in the world can't tighten loose skin, but the Thermage® system can."

INDICATION

- The **radiofrequency energy only delivery components of the Thermage FLX™ system** and accessories are indicated for use in:
 - Dermatologic and general surgical procedures for electrocoagulation and hemostasis;
 - Non-invasive treatment of periorbital wrinkles and rhytids including upper and lower eyelids; and
 - Non-invasive treatment of wrinkles and rhytids.
- The **simultaneous application of radiofrequency energy and skin vibration by the Thermage FLX™ system** and accessories are indicated for use in:
 - Dermatologic and general surgical procedures for electrocoagulation and hemostasis;
 - Non-invasive treatment of periorbital wrinkles and rhytids;
 - Non-invasive treatment of wrinkles and rhytids;
 - Temporary improvement in the appearance of cellulite;
 - Relief of minor muscle aches and pains;
 - Relief of muscle spasms; and
 - Temporary improvement of local circulation (blood circulation).

IMPORTANT SAFETY INFORMATION

- Do not undergo a Thermage FLX treatment if you have a cardiac pacemaker or other active implants. Inform your doctor if you have this condition or are in doubt.
- The most common adverse effects include:
 - o Surface Irregularities: Frequently, surface irregularities are not evident immediately post-treatment, but may appear up to 1 or more months post-treatment.
 - o Altered Sensation: "Numbness," "tingling," or "temporary paralysis" that typically resolves in a short period of time, but may persist up to several weeks.
 - o Burns, Blisters, Scabbing, and Scarring: The procedure may produce heating in the upper layers of the skin, causing burns and subsequent blister and scab formation. There is a possibility of scar formation.
 - o Lumps / Nodules: lumps or nodules under the skin may occur primarily in the neck area that usually resolve within 1 or 2 weeks without chronic or long term complications.
 - o Pigment Changes: Hyperpigmentation (darkening of the skin) that normally resolves within several months.
 - o Edema: Swelling may occur and typically resolves within 5 days, but can persist up to several weeks.
 - o Mild to Moderate Pain: Typically, the discomfort is temporary during the procedure and localized within the treatment area.

Solta Medical is a global leader in the aesthetic industry providing innovative products such as Liposonix®, VASERlipo®, VASER® ultrasonic systems, Thermage® radio frequency and Isolaz® acne therapy systems, and the Clear + Brilliant®, Clear + Brilliant pelo® and Fraxel® lasers.

- > Developed a one-of-a-kind, patented radiofrequency technology designed to deliver comfort and outstanding results
- > Proven efficacy and comfort, with over 50 published clinical studies
- > Since inception, has the most procedures of any tightening product worldwide at +2 million

RESULTS THAT MATTER.

FACE: Softened lines around the mouth, eyes, forehead; improved definition on jawline and under the chin.

BODY: Improved contours and appearance of crepey skin; smoother skin on the abdomen and legs.

EYES: Reduced wrinkles and decreased "hooding" for a more awakened look.

All before and after photos have not been retouched. Individual results may vary.

HOW IT WORKS.

As we age, the collagen that keeps our skin firm breaks down resulting in aging skin that contains fine lines and wrinkles.

A Thermage treatment uses radiofrequency technology to heat the deeper, collagen-rich layers of the skin.

The applied heat causes collagen to contract and encourages new collagen to start growing.

This helps create smoother skin after just one treatment with results that continue to improve for up to six-twelve months.
